Re: **Docket No. FMCSA-00-7382; Commercial Driver's License Standards;
Requirements and Penalties; Noncommercial Motor Vehicle Violations**

Dear Secretary Mineta:

As a transit worker, and a member of the Amalgamated Transit Union (ATU), I am outraged at the FMCSA's proposal to disqualify the commercial Driver's license (CDL) of someone convicted of committing violations while operating a noncommercial motor vehicle non- (CMV). I strongly oppose these unfair, unauthorized and unnecessary penalties!

No evidence has been presented to show that simply because a CDL holder is twice ticketed for going more than 15 miles over the speed limit while driving his/her own vehicle during non-work hours, or is likewise convicted of one the other numerous proposed violations, that the same driver will engage in similar conduct while on-duty driving a CMV. **This is particularly true in my industry, where my behavior behind the wheel is being constantly monitored by passengers and my employer!**

Until the FMCSA can present evidence establishing such a connection, the Agency should not unduly penalize a driver for conduct that he/she engages in during non-work hours which does not in anyway affect that driver's ability to safely perform his/her work duties.

I strongly urge you not to adopt these unnecessarily harsh penalties.

Sincerely,
